

Jaleel A. Wilson

(314) 258-3223 | Jaleelwilson@gmail.com | Dallas, TX

PROFESSIONAL SUMMARY

IT professional with 10+ years of hands-on technical support, infrastructure operations, and hardware troubleshooting across enterprise environments. Skilled in diagnosing and resolving complex issues, coordinating vendor repairs, and supporting high-volume operations while maintaining strong SLA performance. Experienced in supporting remote teams with “hands & feet” execution of tasks, including hardware replacements, cabling, system reboots, and on-site troubleshooting. Strong understanding of IT infrastructure, Active Directory, SCCM, endpoint management, and core networking concepts (TCP/IP, DNS, DHCP). I am known for meticulous documentation, communication, and ability to work independently in demanding environments. Currently focused on expanding into **Data Center and Infrastructure Support roles**, bringing a firsthand approach to server, storage, and network environments.

DATA CENTER & NETWORKING SKILLS

- Data Center Operations & Remote Hands Support
 - Rack & Stack (Servers, Switches, Patch Panels)
 - Structured Cabling (Cat5e/Cat6, Fiber)
 - Cable Management & Labeling Standards
 - Hardware Installation, Replacement & Decommissioning
 - Server & Network Device Troubleshooting (Layer 1–2)
 - Port Mapping, Cable Tracing & Connectivity Testing
 - Network Infrastructure Support (LAN/WAN)
 - IP Addressing, Subnetting & VLAN Fundamentals
 - TCP/IP, DNS, DHCP Configuration & Troubleshooting
 - Switch & Router Support (Cisco, HP, Aruba)
 - Firewall Support (Fortinet – Basic Configuration & Troubleshooting)
 - Wireless Network Support & Access Point Deployment
 - Network Monitoring & Performance Troubleshooting
 - Incident Response, Ticketing & SLA Management
 - Vendor Coordination & Onsite Support Execution
 - Documentation of Rack Layouts, Network Diagrams & Procedures
-

CORE TECHNOLOGIES

- Networking & Infrastructure: Cisco Routers & Switches, HP/Aruba Switches, Fortinet Firewalls, Wireless Access Points, LAN/WAN Environments
- Operating Systems: Windows 10/11, Windows Server, macOS
- Enterprise Tools & Systems: Active Directory, Azure AD, SCCM, WSUS, Microsoft Intune, Autopilot
- Networking Protocols & Services: TCP/IP, DNS, DHCP, VLANs, VPN (Cisco AnyConnect)
- Hardware & Systems: Dell, HP, Lenovo (Desktops, Laptops, Servers), BIOS/UEFI, RAID Configurations
- Scripting & Automation: PowerShell (Basic to Intermediate)
- Security & Endpoint Management: BitLocker, Endpoint Protection, Patch Management

- Ticketing & ITSM Tools: ServiceNow, Jira, Remedy
-

TOOLS & EQUIPMENT

- Fluke Network Tester / Cable Certifier
 - Console & Serial Cables (RJ45, RJ45-to-DB9)
 - Patch Panels & Patch Cables (Cat5e/Cat6, Fiber)
 - Rack Mounting & Server Lift Equipment
 - KVM Switches & LCD Consoles
 - UPS & PDU Monitoring Tools
 - Network Cable Tracers & Tone Generators
 - Multimeters & Basic Electrical Testers
 - Hardware Replacement Kits & Remote Hands Kits
-

CLOUD EXPOSURE

- AWS: EC2 instance management, VPC basics, IAM user access
- Azure: Virtual Machines, Virtual Networks, Azure AD integration
- Familiar with hybrid environments combining on-prem servers and cloud services.
- Basic knowledge of cloud networking, storage, and backup concepts
- Exposure to cloud monitoring tools and alerts

PROFESSIONAL EXPERIENCE

Impel Integrated Tech Services | Freelance / Clients: HP, Dell, Lenovo Network & Hardware Technician | October 2025 – Present | Dallas, TX

- Delivered onsite and remote L2 support for routers, switches, Fortinet firewalls, and wireless infrastructure.
- Installed, configured, and maintained network infrastructure including structured cabling and access points.
- Executed network upgrades and firmware updates to optimize performance and security.
- Diagnosed and resolved LAN/WAN, DNS, DHCP, and IP-related issues to restore connectivity.
- Coordinated with clients, vendors, and remote teams to complete installations, upgrades, and incident resolution.
- Documented network configurations, procedures, and troubleshooting steps.
- Diagnosed, repaired, and upgraded desktops, laptops, and servers.
- Built, imaged, and deployed new systems for end-user onboarding.

Tata Consultancy Services | Client: Toyota Information Technology Infrastructure Engineer | April 2024 – September 2025 | Dallas, TX

- Delivered firsthand IT support across warehouse and enterprise environments, troubleshooting hardware, software, and network issues.
- Configured and supported Warehouse Management Systems (WMS) including roles, permissions, and workflows.
- Monitored system performance and resolved issues impacting real-time logistics operations.

- Supported network infrastructure includes routers, switches, and wireless environments.
- Troubleshoot connectivity issues using TCP/IP, DNS, DHCP
- Executed “hands & feet” tasks including cabling, hardware swaps, and system reboots.
- Managed asset inventory across multiple locations

Insight Enterprises | Client: Path ward

Desktop Support Engineer / System Administrator | February 2023 – March 2024 | Dallas, TX

- Administered Active Directory and Azure AD, managing user provisioning, group policies, and access controls.
- Managed SCCM and WSUS for patching, endpoint protection, and software deployment
- Provisioned devices using Intune Autopilot
- Provided 24/7 support for hardware, software, and network environments.
- Troubleshoot DNS, DHCP, VPN, and routing issues.
- Implemented BitLocker encryption and endpoint security.
- Provided onsite and remote “hands & feet” infrastructure support.

Holland & Knight Law Firm

Desktop Support Engineer / System Administrator | June 2022 – December 2022 | Dallas, TX

- Administered Active Directory, SCCM, WSUS
- Supported network configuration and connectivity troubleshooting.
- Provisioned devices via Intune
- Maintained asset tracking and documentation.

Robert Half | Client: Integrity Marketing Group LLC

Desktop Support Engineer | September 2021 – May 2022 | Dallas, TX

- Managed Active Directory/Azure onboarding/offboarding
- Configured Cisco AnyConnect VPN
- Automated patching using PowerShell.
- Deployed devices via SCCM and Intune
- Provided hardware/software troubleshooting.

Pinnacle Group | Client: Southwest Airlines

Desktop Support Technician | June 2019 – June 2021 | Dallas, TX

- Delivered hands-on support for desktops, laptops, and enterprise systems.
- Executed large-scale system refresh, imaging, and deployment projects.
- Led workstation and application data migrations.
- Troubleshoot LAN/WAN, DNS, DHCP, and IP issues.
- Utilized Active Directory for user account management and device tracking.
- Managed IT asset lifecycle

3D Technology Group, LLC | Client: HCA Healthcare – Medical City Dallas

Desktop Support Analyst / Network Engineer | January 2018 – June 2019 | Dallas-Fort Worth Metroplex

- Configured and supported routers, switches, wireless APs, WLAN controllers (Cisco/HP)
- Troubleshoot routing, switching, and wireless connectivity issues.
- Performed circuit cutovers, network upgrades, and infrastructure support.

- Built, imaged, and deployed IT hardware.
- Implemented BitLocker encryption.

Geek Squad

Desktop Support Technician | September 2016 – January 2019 | Dallas-Fort Worth Metroplex

- Installed, configured, and supported Windows and macOS systems.
- Performed system imaging, data backup, and recovery.
- Diagnosed and repaired desktops, laptops, and printers
- Conducted preventative maintenance and hardware upgrades.

Convergys | Client: Microsoft

Helpdesk Technician | March 2015 – December 2017 | Richardson, TX

- Delivered Tier 1 support for hardware, software, and network issues.
- Troubleshoot Windows OS, Microsoft 365, and endpoint security issues.
- Assisted users with BitLocker encryption.
- Managed 30–60 daily support requests.
